

Dear Mr. Van Reed,

I looked over your website and instantly recognized a favorite home I drive by in my local travels. The home off of Rocksville Road in Holland. Portfolio file # 2875.

You have done it great justice. I can never get enough of its views. I live about a half mile from the home and marvel at its creativity.

Yes you may use my comments on the Rocksville Road house under testimonials. I continue to slow down and marvel at the transformation.

Here is the link I told you about concerning our Phase II work and our virtual exhibit of the work *Exposing the Beams*. Our use of the W.E.R. process was noted and awarded in historic circles. Our virtual exhibit continues to get an unprecedented number of hits. Phase III begins in January of this year and will continue for about 18 months. Exterior plaza first and then interior this time next year. I will also try to do a virtual exhibit on this as well.

Thank you for your interest in the Pearl S. Buck National Historic Landmark Home. I hope you and your party return for a full interpretive tour!

Thank you for your wonderful letter and your recognition of all that is done to keep the estate and legacy of Ms. Buck thriving.

Thank you for your interest,

Donna
